Description

**bioethanol fireplace PIGNA WHITE - MADE IN ITALY -**

artistic product completely handmade with high quality materials.

The fireplace have been made in majolica with 2 consecutive cooking completely handmade, it doesn't need a chimney and consequently any brickwork.

Bioethanol is a natural odorless distilled, it doesn't produce smoke and the combustion is nontoxic it produces only aqueous vapor and equivalent carbonic anhydride to 3 candles.

The produced heat doesn't disperse it, remains in the place with a performance of 100%.

Thanks to the characteristics of the ceramics and its form, it uniformly radiates the heat with only 250 cl (cost around € 0,50) of bioethanol, a room of 30 square mts. can be heated.

Every article won't be never equal to the following one; this guarantees the oneness and originality of it.

The cooking is effected to 1000° (first phase named "biscottatura") and the following decoration of the shades they qualify our articles as luxury products in the field of the artistic ceramics.
