Description

3-Doors sideboard with LED ANUBI

- sideboard made of solid Acacia wood, rich in details and finished entirely by hand
- it is a high-level, high-quality artisan product both in terms of style and materials
- the doors in solid wood with inserts in translucent opaque resin with a thickness of 20 mm are particularly elegant
- base made of matt Anthracite painted steel H12,5 cm
- anti-overturning system with anchoring to the wall
- internal glass shelves 8 mm thick
- internal LED light with sensor and adjustable timer, cordless with power supply Nr. 4 AAA batteries (not included)
- dimensions H 80 x 170 x 45 cm

- [N.B.] Solid wood has morphological characteristics which can be improperly interpreted as defects.

In reality, these are qualities that distinguish it as a unique and precious material, differentiating it from the less.

THE DISTINCTIVE CHARACTERISTICS OF SOLID WOOD

In general it is important to know that knots, small cracks, cracks and slight differences in shades are qualities that distinguish the solid wood products and confirm their authenticity.
